SANITATION

SANITIZING RANGE

DULEVO INTERNATIONAL

INDUSTRIAL AND STREET CLEANING EQUIPMENT

HYDRO – STREET WASHERS

Dulevo street washers range, used for the cleaning, hygienisation and sanitation of roads, is available in Electric, Natural Gas (CNG) and traditional Diesel powered versions.

The machines, with 4 steering wheels or articulated chassis with central joint, guarantee maximum maneuverability during the work phase. The water tanks are made in stainless steel AISI 304 , therefore it's possible to mix different disinfectant products inside them. The machines can be configured, according to customer needs, with high pressure systems, automatic dosing systems for the sanitizing product and with rotating arm for the simultaneous work of two operators (Washing

Dimensions (L x W x H)	mm	4835 x 1480 x 2300	5240 x 190 x 3270	5070 x 2190 x 3270

COMBI – SWEEPERS AND WASHERS

The Dulevo range also offers machines for combined use. The machines combine the functions of sweeping and washing / sanitizing. The machine, with a single operator and directly from the cabin, can sweep and wash / sanitize at the same time. The machine can also be used in combined mode by two operators (Sweeping and washing with operator on the ground).
